

A SINCERE GREETING TO ALL LAKE ASBURY RESIDENTS

At the February meeting, your board inked a contract with Legacy Civil Engineers to do all the stuff to get us to the point of sending for bids and awarding a contract for the spillway on the south dam. It looks like an October time for the whole spillway deal to start. (I guess I'll have to adjust my golf cart route). I finally got my new golf cart and it's really swell. As you may know, there's a lot of paperwork, both government and financial to be completed, but we'll get it done. Your board also submitted a formal request to the L.A.L.L.O.A. to deed their ownership of the dams to L.A.M.S.B.D.. I don't know what decision has been made, but we all hope that they agree, because L.A.M.S.B.D. has sovereign immunity, which protects us all a lot better in the event something goes wrong. Don't let all these initials be a problem, because we ain't the Federal government, with a zillion initials. There are only two out here, and everybody on them are neighbors anyway. Please come to our meetings when your schedule allows. All of us want you there so you can see what is being done. You may hear we have voted to do this or that, but be assured that your board acts with the best interests of the residents of this community in mind. One lady asked me did we do this or that and I told her as I'm telling you now, don't be unduly concerned. Your board lives here too and we want the same things that you do. The folks I serve on the board with, are dedicated, honorable, and are a board to be proud of. If you have any questions about what went on at any meeting, access our website and read the minutes of any meeting held. These meetings are also

**recorded, word for word. This board has complete transparency. I sit on my porch every morning, reading the paper, drinking coffee and looking at the sunlight sparkling on the lake, like a million sparkling diamonds. I have a big white Egret that likes to stand on my dock. It is a beautiful sight. We are all blessed to be able to live in a community like this. There aren't many like it. People walk, jog, walk their dogs, stop and visit with each other, and oh yes, wave. Ain't it great? This sign situation and lawsuits will work themselves out in time. We will still have one of the most beautiful places in the world to live, with caring, friendly neighbors. HANG IN THERE!
Your Trustee, William L. Futch**
