## Service Report

**Date:** September 20, 2007

**Biologist:** Doug Charles

**Client:** Lake Asbury Municipal Service

**Contact:** Mr. Larry Pitts

**Waterways:** North and South Lake Asbury

**Comments:**

**North Lake Asbury**

Today I stocked 985 triploid grass carp into the North Lake. They were 10 to 12 inches in size and looked in good health. All fish swam off normally. Also 15 grass carp were stocked in Lake Ryan.

**South Lake Asbury**

I stocked 100 triploid grass carp into the South Lake today. They all swam off normally.

**Notes:**

Today was by far the most aggressive stocking of the North Lake. To give the association an idea of the history of the grass carp stocking, I have the official history of grass carp stocking from the Florida Fish and Wildlife Conservation Commission.

Date	Fish Farmer	Number of carp stocked
11/15/86	?	1200
2/10/95	?	25

12/08/95	?	250
1/08/97	?	750
6/01/01	?	100
12/01/01	?	100
1/06/06	Shongaloo	200
4/11/06	Langford	100
8/15/06	?	300
9/20/07	Malones	985 N. Lake, 15 Lake Ryan, 100 S.Lake

We are told by Florida Fish and Wildlife that you only have 175 left on your permit.

Please note this list may not be complete, but it is what we have researched.
